SUMMARY

Enthusiastic programmer for hire.

WORK EXPERIENCE

National Disability Rights Network, Inc

July 2018 - Present

- Developed lightweight, accessible websites to serve as reference or training documents.
- Performed technical writing; really got inside the head of the client so as to figure out what they will most need explained
- Oversaw rollout of 2FA system; wrote documentation and provided user support.
- Maintained high volume of case output due to work ethic and strong familiarity with building efficient workflows
- Provided technical support around the office.

Martek Global Services

Oct 2015 - Jun 2018

- Achieved high turnaround for contract modifications, working with stakeholders to resolve issues.
- Identified and communicated a major issue with the batch printing system, resulting in a system fix and a commendation.
- Developed a contract modification tracker used to coordinate action status between contracting department and the program offices.
- Provided technical support around the office.

PROJECTS

“nyuu.page”

[Link to nyuu.page](#)

I am familiar with writing templates and using a static site generator, using HTML, CSS, and Javascript to present experiences to users, benchmarking my content for load time, mobile-first development, and more. I also blog as a hobby; part of my page is a blog.

EDUCATION

2017 - 2021 Associate's Degree in **Computer Science** at Northern Virginia Community College

2011 - 2014 Bachelor's Degree in **Political Science** at Beloit College

SKILLS

Python, JavaScript, website content management, web scraping and GPT fine-tuning. Some experience with shell scripting, linux system administration, reviewing Solidity, and more.
